Director of Planning and Codes
City of Easton, PA
1 S. 3rd Street, 3rd Floor
Easton, PA 18042
610-250-6651

SERVICES:

- Public involvement
- Project stakeholder coordination

In 2010, the City of Easton, PA was awarded funding through the Pennsylvania Department of Transportation's (PennDOT) Pennsylvania Community Transportation Initiative (PCTI) to design and complete improvements to the area in and around the intersection of S. 3rd St. and Larry Holmes Drive. Improvements were aimed at enhancing pedestrian safety, improving walkability, and improving the visual aesthetic of this significant gateway to Easton's downtown historic district.

As part of the design team lead by Pennoni Associates, Taggart Associates developed and implemented the public involvement plan for the project, and planned stakeholder coordination efforts. One of the primary challenges of the project was the extremely compressed schedule required for use of available grant funding. The team was able to submit all required Preliminary Design documentation for this design-build project within approximately 3 months of the Notice to Proceed. The project is scheduled to go to construction in 2012.

Public meeting for the S. 3rd Street and Larry Holmes Drive Improvement project.

Helping Communities Build Unique Urban Environments

Taggart Associates is a Certified Disadvantaged Business Entity through the PA Unified Certification Program and the PA Department of General Services. For more information, please visit www.taggartassociates.com.
