

LEHIGH VALLEY ENHANCED BUS/BUS RAPID TRANSIT STUDY

2012 - Present

CLIENT:

Lehigh and Northampton Transportation Authority (LANTA)

REFERENCE:

Owen O'Neil
Director of Planning
LANTA
1060 Lehigh Street
Allentown, PA 18103
610-435-4517

SERVICES:

- Coordinated and administered the project Advisory Committee and project stakeholder coordination efforts
- Planned and facilitated public involvement procedures

Taggart Associates was responsible for planning and coordinating stakeholder and public involvement efforts for this project to plan enhanced bus/bus rapid transit improvements along priority transit corridors throughout the Lehigh Valley.

This planning process, which was lead by the consulting team of AECOM, HDR Engineering, and Taggart Associates, built upon the recommendations of ***Moving LANTA Forward***, the 12-year strategic vision for public transit in the region that was adopted in 2010. Ultimately, the plan identified specific routes for capital or operational enhancements, while accounting for transit-supportive land use planning/design and opportunities for Transit Oriented Development (TOD).

Taggart Associates coordinated and administered the regional Advisory Committee for the project and facilitated project stakeholder coordination efforts. Taggart Associates also planned and facilitated extensive public involvement procedures, which included facilitating four public open house-style meetings throughout various locations in the Lehigh Valley and developing project promotional materials in English and Spanish.

Public meeting for LANTA BRT Study at the Grand Eastonian in Easton, PA.

Helping Communities Build Unique Urban Environments

Taggart Associates is a Certified Disadvantaged Business Entity through the PA Unified Certification Program and the PA Department of General Services. For more information, please visit www.taggartassociates.com.
